② Items with this icon require Oversize 2 shipping at an additional cost of 17.98 per item.

Stage I Ground Effects ②

All items in this section are subject to UPS Oversize 2 shipping charges.

▲ 08-3950

Stage I Ground Effects Kit

This six-piece package consists of two main rockers, two door pieces, and two rear quarter panels. Puts that finishing touch on any El Camino. Fits 1978-87.

08-3950 ② 299.99

Stage II Ground Effects ②

All items in this section are subject to UPS Oversize 2 shipping charges.

▲ 08-4010

Stage II Ground Effects Kit

This package consists of two Stage II main rockers, two Stage II door pieces, and two rear quarter panels. Includes all hardware and instructions. Entire package can be installed with basic hand tools. Fits 1978-87.

08-4010 ② 409.99

When Ordering Stage I or II Ground Effects the Following Rocker Panel Dimensions Should be Considered:

Width - The amount the rocker panel ground effect extends perpendicular from the side of the body.

Sill Measurement - The amount the rocker panel ground effect extends above or below the centerline of the door sill parallel to the body. This includes the fender, quarter panel and door portions.

Type	Width	Above Door	Below Door
Stage I	2.5"	3.5"	3.5"
Stage II	5.5"*	4"	3.5"

* Please note that the Stage II rocker panel ground effects have a width or profile that is twice as wide as the Stage I units.

Tonneau Covers			
All tonneau covers, except the Deluxe Cover, are made with Elk Grain Vinyl. The Deluxe Cover uses a matte-finish, canvas-type material that is typically used on fine European convertible tops and is waterproofed on the inside. Please tell us if you have cargo bed rails or if you currently have snaps from an old tonneau cover on your car. For no additional charge we can supply the tonneau cover without the snaps installed and/or with cutouts to fit around the cargo bed rails. On all tonneau covers, please specify black or silver snaps. On 1959-60, The snaps install directly on the bed rails. For all other years, the tonneau covers are designed to snap to the quarter panels. (See color samples on page 6 and codes at right.)

Car Covers

Block-It 200 Series Multibond — Kimberly-Clark developed BLOCK-IT 200 Series fabric to be a mid-price leader in quality and performance. It uses 3-layer polypropylene construction for moisture and dust resistance, and the fibers are treated for extra UV resistance. If you are looking for an inexpensive cover for indoor storage and limited outdoor use, this U.S.-made fabric offers good, basic protection and is an excellent value.

- Lightweight** - Easy to use and less bulky for compact storage.
- Soft and Non-Abrasive** - Will not scratch clean paint or clear-coat.
- Breathable** - Allows moisture and condensation to evaporate.
- Moisture, Mold and UV Resistant** - Polypropylene fibers are naturally moisture resistant and treated for extra UV protection.
- Good Dust Protection** - When used indoors, keeps vehicle cleaner than most woven fabrics.
- Material Color Available** - Gray

Deluxe Block-It 380 Series — 380 Series fabric is Kimberly-Clark's newest film barrier fabric, offering great performance at a competitive price. A general protection fabric with an inner film barrier that provides an excellent balance of water resistance, breathability and softness. Features reinforced non-scratch tie-down grommets, neoprene elastic in front and rear hem to hold cover in place and all seams are double stitched and overlapped for strength.

- Naturally Moisture Resistant** - Acid rain, industrial pollutants, tree sap and bird droppings will not harm the fabric.
- Breathable** - Air easily circulates through the fabric to help it dry quickly and reduce heat build-up under cover.
- Dust / Pollution Barrier** - The middle barrier layer acts as a filtration barrier against most airborne pollutants.
- Easy To Use** - Won't shrink or stretch and retains its tailored shape.

Three (3) Year Limited Warranty - Against defects in workmanship and/or the fabric becoming unserviceable during normal use. Covercraft will repair or replace, to the original purchaser, after required inspection.
Material Color Available - Tan

Technalon® Block-It Evolution — Technalon® covers, made with Kimberly-Clark's Evolution® 4-layer non-woven polypropylene fabric, provide maximum protection in all weather conditions. Often imitated, but never equaled, U.S.-made Evolution fabric covers are used by millions of satisfied car enthusiasts around the world. Recent improvements include a stronger outer layer and softer inner layer. The inner layer is constructed with similar processes used for our Dustop™ interior storage covers - gentle protection for fine paint finishes (inner layer is now light gray). Through extensive testing in Florida K-C has confirmed Evolution has the highest UPF rating of all their non-woven fabrics. This is important because UV rays are what damage both the exterior AND interior of any vehicle. Block the UV rays - protect the vehicle!

- Naturally Moisture Resistant** - Acid rain, industrial pollutants, tree sap and bird droppings will not harm the fabric.
- Dries Easily** - Moisture is not absorbed by the fabric fibers.
- Breathable** - Allows air to circulate through the fabric.
- Dust / Pollution Barrier** - The two middle layers of melt-blown fabric act as a filtration barrier against most airborne pollutants.
- Impact Absorption** - 4-layer thickness absorbs impacts better than any other vehicle cover fabric to help protect the finish from nicks, dings, dents and scratches.
